

nCorona Virus Outbreak Control and Prevention State Cell

Health & Family Welfare Department

Government of Kerala

3rd Feb 2020

Constitution of State RRT

WHO has declared the recent 2019-nCoV epidemic affecting 26 countries as Public Health Emergency of International concern. There are 1999 persons in isolation and out of them 3 are positive. In view of this unprecedented event preventive and promotive strategies should be designed and made functional for the prevention of spread of disease in the community.

At the State level, State RRT is constituted for providing all the technical support to manage the containment and provide all technical support for containment and prevention activities.

The State level committees shall give information to the State RRT. The State level Committees shall liaison with District level committees and provide all support.

The State RRT members shall be present in the NHM hall for discussions, troubleshooting and providing technical support to the State Committees Staff assigned to the nCorona Virus Outbreak Control and Prevention State Cell Committees.

The State RRT team will prepare the advisories etc for facilitation of interventions in the field.
